

Flight punctuality evolution April 14-20

From April 14-20, 2025, Chisinau International Airport recorded a noticeable increase in flight punctuality compared to the previous week:

On-time landings:

□ 75.9% of 369 movements — up by 1.5 percentage points from the previous week (74.4%)

On-time take-offs:

□ 85.4% of 370 movements — up by 4 percentage points from the previous week (81.4%)

These improvements confirm the joint efforts of the authorities and airline operators to ensure a reliable and efficient travel experience for passengers.
