

Breakdowns paid into the national public budget from the air transport sector for the year 2024

In 2024, the air transport sector in the Republic of Moldova demonstrated positive dynamics, registering revenues of approximately 7.1 billion lei from its core activities. The contribution from the air transport sector to the national public budget amounted to approx. 376.8 million lei, distributed as follows:

- State budget: 153.4 mln. lei
- State Social Insurance Budget (BASS): 162.5 mln. lei
- Mandatory Health Insurance Fund: 55.8 mln. lei
- Local budgets: 5.1 mln. lei

These figures highlight the essential role of air transport in supporting the national economy and strengthening the Republic of Moldova’s connectivity on an international level.
