

Safe flying starts with you - follow civil aviation rules!

In the hustle of travel, small gestures make the difference. A smile, a kind word, following boarding rules or the crew's instructions – all contribute to a safe, pleasant, and civilized flight for you and for other passengers.

The Civil Aeronautical Authority launches the Responsible Passenger Guide – an awareness campaign reminding you that respectful behavior costs nothing, but is worth a lot.

- **Be polite**
- **Be patient**
- **Follow instructions**
- **Respect others' personal space**

Stay informed and travel responsibly!
