

Breakdown of contributions paid to the national public budget from the air transport sector for the first semester of 2025

In the first semester of 2025, the air transport sector in the Republic of Moldova demonstrated positive dynamics, recording revenues of approximately 3,783.596 million MDL from its core activities.

The contribution of the air transport sector to the national public budget amounted to about 224 million MDL, distributed as follows:

- State budget: 71.9 million MDL
- State Social Insurance Budget (BASS): 115 million MDL
- Mandatory Health Insurance Fund: 37 million MDL
- Local budgets: 0.5 million MDL

These figures highlight the essential role of air transport in supporting the national economy and strengthening the Republic of Moldova's international connectivity.
